CHANNEL MAINTENANCE DREDGING

WINFIELD LOCKS AND DAM, MILE 31.1

LONDON LOCKS AND DAM, MILE 82.7

KANAWHA RIVER

Notice is given that on or about 3 September 2004, Madison Coal and Supply Company will begin channel maintenance dredging in the lower approach to the auxiliary chambers at Winfield Locks and Dam, Kanawha River, mile 31.1. On or about 7 September, the dredge plant will commence dredging operations in the lower approach to the land chamber at London Locks and Dam, Kanawha River, mile 82.7.

The contractor's floating plant will consist of the M/V EARL FRANKLIN, one barge mounted crane, and two material barges. The M/V EARL FRANKLIN will be monitoring marine channels 13 and 16. The work will be performed from 7:00 a.m. to 5:00 p.m. seven days per week, and it is anticipated that the dredging will be completed on or about 13 September 2004. The dredged material will be disposed in certified in water disposal areas adjacent to the dredging locations. No delays are anticipated.

During non-working hours the contractor's floating plant will be moored at the work site, and lighted according to regulation.

Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution.

ARLIE D. BISHOP
Chief, Technical Support Branch
